NC State first-year student pursuing mechanical engineering and Eagle Scout with a strong background in project management, computer aided design, programming, and creative problem-solving.

EDUCATION

North Carolina State University

B.S. Electrical Engineering, Controls and Robotics Concentration int.
B.S. Computer Engineering, Embedded Systems Concentration int.
Minor, Graphics Communication int.
GPA: 4.0

Raleigh, NC
Planned May 2029

EXPERIENCE

Huntersville Parks & Recreation

Summer Camp Counselor

Concord, NC
May 2025–Present

- Lead daily activities, games, and team-building exercises for groups of middle school campers.
- Ensure camper safety through active supervision, rule enforcement, and emergency preparedness.
- Facilitate trips, outings, and overnight camping experiences while maintaining organization and accountability.

FTC Robotics Team 16328 - Trial N' Error

Team Captain

Concord, NC
September 2023–August 2025

- Led and coordinated a robotics team in designing, building, and programming competitive robots for FTC challenges.
- Guided team problem-solving efforts, integrating engineering and computer science approaches to meet complex tasks.

SKILLS

Leadership, quick learning, Object oriented computer programming, CAD software (Solidworks/OnShape), 3D printing

HONORS/AWARDS

North Carolina State University

Semester Dean's List (Fall 2025, Spring 2026), First Year Engineering Design Day 1st Place (Study Abroad category, 2026), University Honors Program

Cox Mill High School

Summa Cum Laude (2025), National Honors Society (2025), Mu Alpha Theta (2025), AOIT Programming Award (2022)

Boy Scouts of America

Assistant Scoutmaster (2025), Eagle Scout (2023), National Youth Leadership Training (2023), BSA Lifeguard (2024), Arrow of Light (2020)

CAMPUS INVOLVEMENT

BattlePack Robotics

Design, build, and drive LW combat robots using CAD and creative problem-solving skills

Member
January 2026

E101 Engineering Project - Prague, Czech Republic

Lead a team in creating a 3-wheeled autonomous scooter prototype capable of remote control, and automated driving. Placed 1st place in our category at NC States First-Year Engineering Design Day 2026.

Project Manager
March 2026
